EXPERIENCE

Intellectero Solutions Nov 2024 - Nov 2026 | Remote

Product & UX/UI Designer

Crypto software studio. I was the team's only designer, on web and mobile.

- Designed live market data screens for 9 exchanges: order books, spread and depth charts, a token ranking.
- Took features from a rough brief to finished flows.
- Built a design system with tokens, components and light and dark themes, and kept Figma and code in sync.
- Ran the whole frontend from July 2026, in React and TypeScript with Claude Code.
- Designed interactions and motion across the product.
- Made 3D renders of the product in Blender.
- Designed the sales deck with the product lead.
- Wrote API specs for the backend team.

SKILLS

Product Design, Design Engineering, Claude Code, Design Systems, Figma, UX Design, UI Design, Data Visualization, Prototyping, Wireframing, React, TypeScript
